

K-Love is a significant part of my local community and is very important to my family. K-Love provides a Community Calendar, which relays announcements regarding local events that are free and open to the public. This is an invaluable service. If K-Love were to be displaced by an LPFM broadcaster providing other programming, my community would lose the only local FM radio station that plays contemporary Christian music. K-Love, which is heard on 106.7 in my area, provides music of hope and joy, which is so needed in our country right now. It is unlike the other radio stations in our area, which rely on crass humor and aggressive music to bring in their advertising dollars. K-Love is unique on our radio dial in that it is completely family-friendly. Please do not enact the proposed LPFM rules, which would give LPFM a priority over FM translator service, which might leave us without our K-Love signal. The translator service is what makes K-Love available to hundreds of thousands of listeners. Thank you for your consideration.
